

This week my main works are as follows:

- Meeting with teacher He about **Criminal Forecast** in T-gram, and find the partial derivative of the equation, finally we finished this task on Friday.
- I have prepared the **report** with “VA²: A Visual Analytics Approach for // Evaluating Visual Analytics Applications” , and I have finished my blog on VAG page.

Monday-Tuesday

I was finished my tasks in T-gram about Criminal Forecast, and the Results are as stated by teacher He by E-mail. I was excited about the exciting results, we will spare no efforts to complete this project.

Wednesday-Friday

I was preparing the report with “VA²: A Visual Analytics Approach for // Evaluating Visual Analytics Applications” , and I have reported this report on Thursday. Finally I finished my blog about this paper on VAG page on Friday.

Saturday-Sunday

Play with my high school friends.

Next Week

I will finished the paper of the Survey on Predictive Visual Analytics. And ask about the teacher Chen about what can I do in the following weeks.
